### **DETAILED ACTION**

1) Acknowledgement is made of Amendment received 6/16/2003. Applicants amend claims 1, 7-8, 18-20, and cancel claims 2, 10, 11, 13, 17.

Claims 1, 3-9, 12, 14-16, 18-20, are under consideration.

### ***Specification***

2) The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: there is no antecedent basis for claimed subject matter recited in claims 4, 5, 6, 9, 12, 14, 15, 16.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3) Claims 1, 3-9, 12, 14-16, 18-20, are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is not clear if "a base body of metal" "with a cooling system" is structured in combination with the "glass melt" or stand alone.

Claim 1 recites the limitation "the coating material" in line 9. There is insufficient antecedent basis for this limitation in the claim.

Claim 3 recites the limitation "the plastic" in line 3. There is insufficient antecedent basis for this limitation in the claim.

A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949).

In the present instance, claim 5 recites the broad recitation "between 20 $\mu$  and 250 $\mu$ ", and the claim also recites "between 40 and 200 $\mu$ " which is the narrower statement of the range/limitation.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 1731

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4) Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Barnoach (5,011,562). Barnoach discloses a metal tube (as the base body) being plastic coated on the inside and outside of the metal tube following which said tube is cooled by passing the tube through a water bath (as the cooling system) (Abstract). The claimed "glass melt" is interpreted as the intended use of "a base body of metal" "with a cooling system".

***Response to Amendment***

5) Claims 1, 4-6, 15-16, rejection under 35 U.S.C. 102(b) as being anticipated by Boen, is withdrawn in view of applicants argument and cancellation of claims.

6) Claims 7-8, 19-20, rejection under 35 U.S.C. 103(a) as being unpatentable over Boen in view of Richards, is withdrawn in view of applicants argument and cancellation of claims.

7) Claim 9 rejection under 35 U.S.C. 103(a) as being unpatentable over Boen in view of Macedo, is withdrawn in view of applicants argument and cancellation of claims.

8) Claims 2-3, 10-14, rejection under 35 U.S.C. 103(a) as being unpatentable over Boen in view of Gustafson, is withdrawn in view of applicants argument and cancellation of claims.

Art Unit: 1731
